As the property owner, tenant, or person who has requested notice, please be advised that the San Joaquin County Environmental Health Department (EHD), as the Local Enforcement Agency (LEA), is in the process of approving a permit revision for the Forward Resource Recovery Facility. The proposed changes for the Report of Composting Site Information (RCSI) and the Transfer Processing Report (TPR) amendments were accepted as complete on August 20, 2014. The LEA is certified by the State of California Department of Resources Recycling and Recovery (CalRecycle) to enforce state laws and regulations at solid waste sites within the County of San Joaquin, including all transfer stations and composting sites.

Description of Project

Forward Resource Recovery Facility is a 33.23-acre facility. The facility is owned and operated by Forward, Inc. The site is located at 9999 South Austin Road, Manteca, CA; the nearest cross road is Arch Road. The facility is proposing to revise their Solid Waste Facility Permit (SWFP) as well as amend their TPR and RCSI.

The proposed changes for the SWFP, TPR and RCSI include the following:

- Tonnage shall not exceed 8,668 tons per day (or 46,080 tons/week) (combined tonnage for the RRF and Forward Landfill).
- Acceptance of cannery rinse water at the compost facility.
- Updated Odor Impact Minimization Plan.
- Updated Site Health & Safety Program Plan.
- Incorporated the recently approved Waste Discharge Requirements Order No. R5-2014-0006.
- Actual hours of operation are stipulated in the permit documents.
- Wheel wash station incorporated into the permit documents.

Preliminary Determination

The LEA's preliminary determination is that the SWFP revision would be approved. The proposal to revise the solid waste facilities permit meets the requirements of Title 27, California Code of Regulations (CCR) 21665 (d)(1-2). The LEA has accepted as complete the proposed RCSI and TPR amendments. The RCSI and TPR amendments have met the requirements found in Title 27, CCR, 21665 (c)(1-3).
