SOLID WASTE FACILITY PERMIT

Facility Number:

34-AA-0020

17. Enforcement Agency (EA) Conditions:

- a. The operator shall comply with all State Minimum Standards for solid waste handling and disposal as specified in Title 27, California Code of Regulations.
- b. The operator shall maintain a log of special/unusual occurrences. This log shall include, but is not limited to, fires, explosions, the discharge and disposition of hazardous or unpermitted wastes, and significant injuries, accidents or property damage. Each log entry shall be accompanied by a summary of any actions taken by the operator to mitigate the occurrence. The log shall be available to site personnel and the EA at all times.
- c. Additional information concerning the design and operation of the facility shall be furnished upon request and within the time frame specified by the EA.
- d. The maximum permitted daily tonnage for this facility is 4125 tons per day and shall not receive more than this amount without a revision of this permit.
- e. This permit is subject to review by the EA and may be suspended, revoked, or revised at any time for sufficient cause.
- f. The EA reserves the right to suspend or modify waste receiving and handling operations when deemed necessary due to an emergency, a potential health hazard, or the creation of a public nuisance.
- g. Any change that would cause the design or operation of the facility not to conform to the terms and conditions of this permit is prohibited. Such a change may be considered a significant change, requiring a permit revision. In no case shall the operator implement any change without first submitting a written notice of the proposed change, in the form of an RFI amendment, to the EA at least 180 days in advance of the change.
- h. A copy of this permit shall be maintained at the facility.
- i. As outlined in Section 16 of this permit, the operator shall maintain accurate daily records of the volume and tonnage received and the number of vehicles accessing the facility. These reports shall be made readily available at the facility to the EA or other regulatory personnel.
- j. Incidents involving unlawful disposal or spills of hazardous materials shall be reported to the EA within 24 hours.
- k. The facility is authorized to store up to 300,000 CY of recovered materials that can be reused or undergo further processing. The storage area shall not create a public health or safety hazard.
- l. The EA reserves the right to require additional measures, as needed, to adequately control nuisances resulting from landfill operations.
- m. The facility shall not receive more than 10,000 cubic yards per day of waste. This condition does not suspend the permit tonnage limit of 4,125 inbound tons per day.
