Subject: Request to Withdraw the Proposed Revised Solid Waste Facilities Permit for
Recology Los Angeles, Facility No. 19-AR-0303

On June 23, 2016, Department of Resources Recycling and Recovery (CalRecycle) staff received your request to withdraw the proposed revised Solid Waste Facilities Permit (SWFP) received on April 26, 2016 for the subject facility. As noted in the operator's letter to your department and CalRecycle, dated June 22, 2016, the timelines to process the SWFP application, pursuant to Public Resources Code, Sections 44008 and 44009, have been waived to October 1, 2016. The operator has waived the timelines to process the SWFP application to give the operator additional time to consider potential construction options that may be required by other regulatory agencies.

Per your request, the SWFP received on April 26, 2016 is being returned (electronically attached). When the operator resolves the issue mentioned above, you may re-submit a proposed SWFP to re-start CalRecycle's 60-day concurrence timeframe. The early submission of a draft SWFP is highly encouraged.

If you have any questions, please contact Megan Emslander at 916-341-6363 or megan.emslander@calrecycle.ca.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jeff Hackett", is written over a light blue horizontal line.

Jeff Hackett, Manager
Permits & Assistance South Section
Waste Permitting, Compliance & Mitigation Division
