RE: Lemans Karting: Indoor Kart Racing- Beneficial Reuse Exemption for tires per Title 14, CCR 17346(f)

Dear Mr Snyder,

Lemans Karting (Indoor go-kart track) is located at 45957 Hotchkiss Street in Fremont, CA and we are seeking a beneficial reuse exemption for tires per Title 14, CCR 17346(f). Since the opening of the Lemans Karting, we have used recycled tires along the perimeter of the track and this has effectively prevented customer injuries, and equipment damage on the race track. The used tires provide a sound and economical source for shock absorption of go-karts that may veer off the race track. There are approximately 600 used tires on site being used as the outer safety barriers. Compared to the cost of air bags, or the debris left on the track by hay bales, tires offer an effective, safe, and economic alternative.

Along with this letter, you will find the following:

- 1.) Letter from the City of Fremont Planning Committee, dated 4/15/14 which states that the use of the tire barriers is approved under the current City of Fremont Planning Permits.
- 2.) Letter from the Fremont Fire Department - Fremont Fire Department, dated 5/2/14, which states that they have inspected the tire barriers and they have no objection to the use.
- 3.) No pest control needed for our outdoor track, since it has been removed (See photos attached).

I hope this letter addresses all the areas of concern. If we need to add any further information or detail on any item, please don't hesitate to contact me via email (Amanda@LeMansKarting.com) or by calling my office at [510.770.9001](tel:510.770.9001).

Sincerely,

Amanda Hurtado
GM - LeMans Karting, Fremont

OVERVIEW OF TRACK LAYOUT. TIRES ARE PLACED ALONG THE PERIMETER AND ANCHORED DOWN AT HIGH IMPACT AREAS.

OUTSIDE FACILITY (NO OUTDOOR TRACK)
