Bakersfield, CA 93301

**RE: Addendum to Emergency Waiver of Standards – Bakersfield Metropolitan (Bena)
Sanitary Landfill, SWFP No. 15-AA-0273**

On August 4, 2016, the Kern County Public Works Department submitted a request for the emergency waiver of standards at the Bena SLF to handle disaster debris coming from the Erskine Fire cleanup. In addition to the original request, the Department is also asking for a waiver to allow for the acceptance of materials containing greater than 1% friable asbestos. Due to the nature of the material that has burned, it is anticipated that some amount of friable asbestos may come into the facility. All incoming debris will be handled in compliance with the CalOES Operation Plan requiring debris be double "burrito" wrapped and sealed. Debris from the fire will be handled at a separate working face, away from the active working face and site customers. Proper personal protective equipment will be used by on-site staff.

If you have any questions or require additional information, please contact Brian Klatt at (661) 862-8940 or Terence Dozier at (661) 862-8994.

Sincerely,

A handwritten signature in blue ink, appearing to read "Ronelle Candia".

Ronelle Candia
Waste Management Supervisor
