RECYCLE USED OIL

A small price to pay to protect our environment

California's eRecycle Fee

When you purchase a new TV or computer monitor, you will be charged a recycling fee of $6-10, depending on screen size. This new state law is designed to help create the nation's first eRecycling program. We'll keep harmful materials from millions of discarded electronic devices from ending up in landfills and in our water supplies. So for a few dollars, we can help protect California's environment, and help keep us all a little healthier. For more information, visit **eRecycle.org.**

Public Health and the Precautionary Principle

"Avoid exposure to pesticides whenever and wherever possible."

the Ontario College of Family Physicians

SF Precautionary Principle Ordinance

Chapter 1 Precautionary Principle Policy Statement

Sec. 100. FINDINGS.

The Board of Supervisors finds and declares that:

A. Every San Franciscan has an equal right to a healthy and safe environment. This req
earth, and food be of a sufficiently high standard that individuals and communities
fulfilling, and dignified lives. The duty to enhance, protect and preserve San Franci
the shoulders of government, residents, citizen groups and businesses alike.

B. Historically, environmentally harmful activities have only been stopped after they h
environmental degradation or exposed people to harm. In the case of DDT, lead, an
regulatory action took place only after disaster had struck. The delay between first
