Proposed Solid Waste Facility Permit Revision for the Salton City Solid Waste Site #13-AA-0011

PUBLIC NOTICE IS HEREBY GIVEN, in compliance with Section 21660.2 of Title 27 of the California Code of Regulations, that the Local Enforcement Agency (LEA) will be conducting an informational meeting regarding a proposed Solid Waste Facility Permit revision for the Salton City Solid Waste Site located at 935 Highway 86 in Salton City, California.

Date: August 28, 2013
Time: 6:00 P.M. – 8:00 P.M.
Location: Salton Community Services District
2098 Thomas R. Cannell Road, Salton City, California

Purpose: The meeting is being held to provide information about a proposed revision to the Solid Waste Facility Permit for the Salton City Solid Waste Site as requested by Burrtec Waste Industries, Inc., the current operator of the County landfill facility. The public will be offered the opportunity to comment and ask the LEA questions about the application package that was accepted for filing on **August 9, 2013**. A summary of comments from the informational meeting and any written public comments received by the LEA prior to the meeting will be included with the permit revision application package submitted to the California Department of Resources Recycling and Recovery (CalRecycle) for consideration.

Project Location: Salton City Solid Waste Site
935 Highway 86, Salton City, California
(approximately 3 miles south of Salton City and 3 miles west of Highway 86)

Facility Operator: Burrtec Waste Industries, Inc.
9890 Cherry Avenue, Fontana, California 92335 (Tel.: 909-743-6319)

Project Description: The proposed permit revision is requested to increase the estimated site life of the Salton City Solid Waste Site an additional 25 years by expanding the permitted disposal area from 7.8 acres to 284 acres within the 320 acre parcel. The maximum design height of the landfill will also be increased from an elevation of 15.5 feet to 218 feet above mean sea level. Operational revisions include increasing the maximum permitted tonnage to 6,000 tons per day delivered to the site by up to 723 vehicles per day. The increase in daily tonnage disposed at the facility is planned to be phased in over an estimated time of 10 years and the facility will be limited to 3,000 tons per day within the initial phase of operations. The current Solid Waste Facility Permit limits the facility to a maximum daily tonnage of 50 tons and the maximum number of vehicles per day is 150 vehicles. Additionally, the operator proposes to increase the hours of operation to 24 hours per day 7 days a week for site maintenance and acceptance of long-haul commercial vehicles for waste delivery. The facility will be open to the

public and commercial vehicles for waste disposal Monday - Saturday, 7 A.M. to 5 P.M. The current hours of waste disposal operations are Tuesday - Saturday from 7 A.M. to 4 P.M.

Additional information: A copy of the proposed revisions are available for public review in the office of the **Imperial County Division of Environmental Health (LEA), located at 797 Main Street, Suite B, in El Centro, California** during regular business hours.

Public comments regarding the proposed solid waste facility permit revisions may be provided to the LEA at the informational meeting or may be submitted by e-mail or by mail to the address listed below prior to August 28, 2013.

Appeals Process Information: For information on the appeals process pursuant to Section 44307 of the Public Resources Code Section, please contact the Local Enforcement Agency. Any appeal by the public to challenge the issuance of the proposed permit by the LEA may only be requested after a decision to concur or reject the proposed permit has been made by the California Department of Resources Recycling and Recovery at a regularly scheduled public meeting to be held in Sacramento, California.

Meeting Location: 2098 Thomas R. Cannell Road, Salton City, California
(At the corner of Highway 86 and South Marina Drive)
